

YOUR LOCAL **AI-POWERED** IT DEPARTMENT

Every small business needs an IT department.
None of them can afford one. Until now.

Click IT puts an enterprise-grade, AI-powered IT department on Main Street.

There are 33 million small businesses in America. Nearly all share the same problem: drowning in administrative tasks they don't understand, cannot afford, and spend 35+ hours a week trying to manage.

Chasing invoices, updating websites, and managing passwords isn't why you went into business.

WHERE YOUR TIME GOES

- Email & calendar busywork
- Bookkeeping reconciliation
- Website updates
- Passwords & security
- Administrative follow-up

35+
HOURS / WEEK

STOP WASTING WEEKENDS.
Meet your local AI-powered team.

GROW + OPERATE FROM ONE CONNECTED PLACE

MEET SAM

YOUR CHIEF-OF-STAFF

www.ownsam.ai

*Work Smarter,
Not Harder.*

1. RUNS LOCALLY

SAM runs on a small, secure computer right in your building. If the internet goes down, your office keeps working.

2. SECURE DATA PRIVACY

Your sensitive files and customer records never leave your physical building.

3. 24/7/365 AUTOMATION

Email drafts, calendars, bookkeeping reconciliation, website updates, and security monitoring around the clock.

4. FRACTION OF THE COST

Enterprise-level operations and automation support for less than a temporary virtual assistant.

SAM + CLICK IT CRM

AUTOMATE THE BACK OFFICE. GROW THE FRONT OFFICE.

SAM helps automate day-to-day operations. Click IT CRM helps attract, engage, convert and retain customers from one connected platform.
